🌐 protectnowllc.com

Robert is a security expert and private investigator with 30+ years experience, #1 Best Selling [Amazon.com](https://www.amazon.com) author of 5 books, and the architect of the CSI Protection certification; a Cyber Social Identity and Personal Protection security awareness training program. He is a frequent speaker and media commentator, and CEO of [Safr.Me](https://safr.me) and Head Trainer at [ProtectNowLLC.com](https://protectnowllc.com).

Robert has been featured on CNN, Fox News, CNBC, MSNBC, ABC World News Tonight, NBC Nightline, CBS Early Show, Today Show, Good Morning America, and in the NY Times, Wall Street Journal, Time Magazine, Fortune, Forbes, Entrepreneur and many more.

His personal mission is to inform, educate and empower people so they can protect themselves and their loved ones from violence and crime in their everyday lives, both in their physical and virtual interactions.

EXPERT WITNESS

ROBERT SICILIANO

Attorneys retain expert witnesses to evaluate claims, explore the validity of a claim, write a report (which would be used to settle or adjust cases), form an opinion in a case, see if their claim is a viable claim and testify at a deposition, in court or both to express his opinions when cases are tried or litigated.

Robert is a personal security consultant with more than 30 years of experience in the process of privatizing and protecting personal information and data. He has been involved in providing expert testimony in high-profile cases regarding personal security and data privacy.

AVAILABLE TO CONSULT AS AN EXPERT WITNESS FOR:

- Evaluating claims related to cyber security, personal security and identity theft
- Diagnosing the validity of claims
- Recommending settlements, adjustments to cases or both
- Reviewing majority and dissent opinions
- In-person testifying
- Litigation consultation

Contact robert@safr.me with the details of your case for more information.

PAST EXPERIENCE

Ahdoot & Wolfson, P.C. | 11/12/2018 and 01/10/2017 | Los Angeles, CA

Expert witness on two occasions to provide a reasonable estimated retail market value for credit monitoring.

Bret Lusskin, P.A. and Scott D. Owens, P.A. | 07/01/2016 | Hollywood, FL

Expert witness to provide a reasonable, estimated retail market value for identity theft protection.

George Mavris | 01/09/2012 | Akron, OH

Expert witness to provide a reasonable estimated retail market value for company-wide data breaches.

EXPERT BACKGROUND

The Authority on Security

When the internet was still coming of age, Robert's startup security company's financial holdings were under attack by cybercriminals, and he lost thousands of dollars due to credit card fraud. In becoming one of the earliest victims of internet crime, Robert gained the knowledge and experience to teach others how they could position and protect not only their companies but also themselves from falling prey to internet thieves. His years of experience, combined with extensive study, have allowed him to become one of the nation's most well-respected and trusted experts on cybercrime. He has worked with such companies such as ExxonMobil, Intel, McAfee, MasterCard, Morgan Stanley, Merrill Lynch, KPMG, MIT, Transamerica and UPS, and almost every major media outlet has turned to him for information on identity theft, internet safety, crime prevention and security.

Robert works with both private and public businesses as the president and CEO of Safr.me, and he teaches clients how to keep their money, privacy and data secure against acts of fraud, identity theft, corporate espionage and purposeful or accidental exposure of private information—all acts which cost companies billions nationwide.

SPEAKER TOPICS

Providing Client Security and Ensuring Loyalty: A Guide for Financial Firms

Every week, Robert Siciliano inevitably hears from a distressed financial advisor, who has to rescue a client whose accounts have been compromised. The fact is, your moneyed clients are big targets, and they aren't necessarily cyber savvy.

Social Media Security: Marketing, Extending and Defending Your Online Reputation

The risks we face from sharing certain information are substantial—from personal security to damaged reputations. Learn the fundamentals of reputation management and the safest implications of using social media.

Defending Against the Data Breach: Protect from Spyware, Malware, Ransomware and Keyloggers

We keep hearing about data breaches involving millions of credit card and account numbers. Data breaches cost thousands of dollars, and corporations can take a huge hit in publicity. Don't let your organization become a statistic!

Other speaker topics include:

- Putting Your Digital Data on Lockdown
- Security Appreciation, Not Security Awareness
- Identity Theft Protection, Prevention and Awareness
- Take Charge, Fight Back!: Street-Smart, Street-Safe Personal Security
- Mortgage and Real Estate Fraud: A Real House of Cards
- Corporate-Travel Security at Home and Abroad

All of these programs are customizable for keynotes, webinars and workshops. Contact sales@robertsiciliano.com for pricing or visit www.Safr.me/speaking.

TESTIMONIALS

“We hired Robert to be our Keynote speaker during an annual Security Education Week within our company and could not have been more impressed. He was very professional, highly energetic and truly well-educated on a variety of different security topics. We received so much positive feedback regarding his presentation.”

- Lauren Zink, Security Awareness Manager at Diebold

“We engaged Robert as our keynote speaker for our company’s annual Security Awareness Week, and he shared four, highly-engaging and easily-applicable presentations with more than 4,000 global employees. As an information security professional, I know firsthand how difficult it can be to take very conceptual threats and make them relevant to a large audience. Robert’s storytelling abilities and his direct style made him easily relatable to our people.”

- Caterpillar Inc.

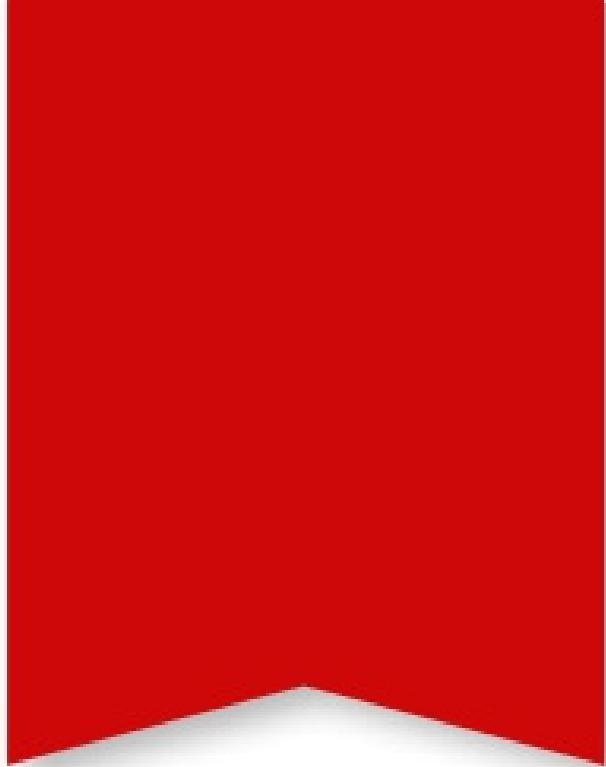

“Robert Siciliano is a fantastic speaker! People are still talking about what a great speaker he was, and he spoke to us over three months ago. He knew his material, kept everyone entertained and had a lot of valuable information to give. We will definitely get him back to our study club again.”

- Seattle Study Club Chapter

“Robert’s presentation at the 22nd Annual Bankers’ Hotline Security Officers Workshop was the highlight of this two-day event. His entertaining style and expert commentary was exactly what these security professionals needed to hear. Many thanks for adding a fresh perspective to the identity theft issue.”
